## NORTHWEST HUNTERSVILLE TRANSPORTATION STUDY – SECOND OPEN HOUSE

The Town of Huntersville has initiated a planning study to evaluate the transportation needs in the northwest area of Huntersville, specifically focusing on how Ervin Cook Rd, Hugh Torrance Pkwy and Birkdale Commons Pkwy alignments connect to NC 73.

Help us find a best available solution by attending this second Open House to review alignment alternatives that resulted from the first round of community input!

The technical analysis and your continued involvement will help select the proper alignment, design, and connections for a comprehensive system of future road, bicycle, and pedestrian facilities for our town.

*It is the policy of the Town of Huntersville that all Town-sponsored public meetings and events are accessible to people with disabilities. If you need assistance in participating in a meeting or event due to a disability as defined under the ADA, please call the Project Manager at (704) 766-2213 at*

**WE WANT TO  
HEAR FROM YOU!**

*Drop-in anytime to view alignment alternatives, take a short survey, talk with staff, and network with your friends and neighbors.*
