Patterns, Trends, and Training

The predominant Standards of Conduct that were at issue in 2021 was Uniform Standard of Conduct **#4.12 Emergency & Routine Vehicle Operation** and **#14 Conformance to Laws-False Arrest**. Most of these complaints were investigated by Division Commanders, who have been trained on the IA policy and investigation techniques.

The Department purchased IA PRO software in July of 2011. This change has enhanced the management of investigations and has provided improved tracking of all complaints. The IA Pro module has streamlined the complaint process and most supervisors utilized this system and continue to approve of it. Our training and technology improvements have enhanced the complaint taking process and should continue to simplify the process for years to come. The Huntersville Police Department's policy on investigating all allegations of employee misconduct will continue and it supports our commitment to providing the highest levels of integrity and professionalism to the community we serve.
